

Rear Projection

# SMART Board™ 2000i

interactive whiteboard

## The All-in-One System for Enhanced Classroom Outcomes

The *Rear Projection* SMART Board 2000i interactive whiteboard turns your classroom into an interactive learning center that engages students and improves learning. The 2000i's bright, touch-sensitive display invites your students to "see and do," for a proven approach that makes understanding material and retaining information easier.

A cost-effective alternative to systems that require a separate projector, media cart, audio system, floor stand, interactive whiteboard and cabling, the 2000i combines all of these elements in one easy-to-use, mobile package. A unique height adjustment feature makes the 2000i accessible to all users, including those with special needs. The 2000i's durable display provides a large workspace, and the integrated rear-projection system means you can work without casting a shadow on the screen.

## Enrich Lessons with Interactivity

The 2000i enriches lessons by letting you write in digital ink over any application or website on the display. You can then edit, print, save or post your notes for future reference, saving you time.

The heart of every SMART Board interactive whiteboard, including the 2000i, is feature-packed SMART Board software. Complete with a gallery of images and templates that support your curriculum, SMART Board software is intuitive and easy to use, which means a greater return on your technology investment.

Regardless of teaching or learning style, the flexible 2000i adds interactivity and increased engagement to any classroom environment.

*"With the 2000i, my teaching is more interactive and preparation for state assessments is a joy. Our campus has thirteen 2000i's, and they have changed teaching on our campus forever."*

*Michele Garza, Teacher  
The Meridian Independent School District, TX, U.S.*

Write over any application or website, and then save your lesson to a single file.

## Features

## Dimensions

<b>Screen area</b>	66" (167.6 cm) diagonal 4:3 aspect ratio
<b>Height adjustment range</b>	Adjustable from 69" (175.3 cm) to 83" (210.8 cm)
<b>Width</b>	66 7/16" (168.8 cm)
<b>Depth</b>	35 1/2" (90.2 cm) with tip feet retracted
<b>Cabinet depth</b>	29 1/8" (74 cm)
<b>Weight</b>	272 lb. (127.8 kg)

Height-adjustment handle  
Control panel

**NOTE:** Computer not included

### SMART Board Software

Notebook software's take-home privileges make it easy for teachers to work from anywhere they choose.

- Create, manage and teach lessons with Notebook software
  - Use a keyword search to find thousands of free learning objects in the Gallery including images, backgrounds, Adobe® Flash®, video and audio content. And add your own content.
  - Access country-specific lesson activities, curriculum standards and classroom resources from within the Gallery
  - Attach a hyperlink to an object to link to webpages, whiteboard pages in the file, attachments or documents on the computer
  - Include superscript and subscript to your text, or add scientific symbols and notation
  - Rotate, move, flip, and resize objects, including notes and screen captures
  - Use Dual Page Display to view two pages simultaneously. You can draw, take notes and attach files or link to objects and websites on either page.
  - Share content on the network without an administrator's installation
  - Reveal all hidden links on a Notebook page with the View All Links function
  - Make objects transparent
  - Organize pages in the Page Sorter
  - Drag objects between pages and from other applications
  - Save files in various formats (e.g., PDF, HTML)
  - Save pages as separate image files (e.g., JPEG, PNG, GIF)
  - Share files across platforms (e.g., Windows® operating systems, Mac OS operating system software, Linux® operating systems)
  - Move toolbars to the bottom of the screen
  - Choose drawing tools for connectors, dotted lines, pen styles and more
  - Import and export Microsoft® PowerPoint® files
- Convert handwriting to text
- Reveal information with the Screen Shade or Spotlight
- Write over moving or paused video
- Use LinQ™ software with your wired or wireless network for quick connections between devices. Use your laptop to project onto and control the interactive whiteboard (and vice versa).
- Access common applications from the Start Center
- Record all screen activity as a video, and include audio from a microphone
- Customize the Floating Tools palette
- Input text with the On-Screen Keyboard
- Write and save notes in many third-party applications\*
- Write over PowerPoint slides, Word and Excel® files, and save your notes in these files
- Write and save into Paint, CorelDRAW® and AutoCAD® software and conferencing applications such as SMART's Bridgit™ software
- Choose from 35+ languages\*\*

\*Windows operating systems only

\*\*As of November 2006

**Touch system** – DViT™ (Digital Vision Touch) technology is the magic behind SMART's proprietary optical touch system. Use your finger as a mouse and write in digital ink on the screen over any application or website – without special tools or reduction in image quality.

**Save function** – Save all your work to a single file that works with, or is compatible with, both Windows and Mac OS operating systems. Notes and graphics are saved as objects that you can manipulate and reorganize. Or, write and save notes directly into popular Microsoft Office applications and AutoCAD.

**SMART Pen Tray** – Sensors detect when a pen or eraser tool is picked up from the SMART Pen Tray. Buttons on the tray allow you to choose an On-Screen Keyboard or a right-click.

**Projection system** – XGA (1024x768) projector with short-throw lens comes installed.

**Control panel** – Projector power, input sources and volume controls can be controlled from the front of the unit.

**Height-adjustment handle** – The handle can be used to adjust the screen height between 69" (175.3 cm) and 83" (210.8 cm).

**Audio system** – Control the volume of the stereo-amplified speakers from the front of the cabinet.

**Locking casters** – Four durable casters make the 2000i easy to reposition and lock into place.

**Laptop shelf** – The shelf attaches to either side of the cabinet.

**Warranty** – Two-year limited equipment warranty on the screen, cabinet and projector. 500 hour/three month warranty on the projector lamp.

### System requirements Windows operating systems

Pentium® II 450 MHz processor • 128 MB of RAM (256 MB recommended) • 136 MB of free hard disk space for minimum installation (511 MB for full installation with Gallery collections) • Windows NT® 4.0 (SP6), Windows 98 operating system or later • Microsoft Internet Explorer 6.0 or later • Macromedia Flash player version 8

### System requirements Mac OS operating system software

700 MHz processor (1 GHz or faster recommended) • 128 MB of RAM (256 MB recommended) • Mac OS X versions 10.3.9 and 10.4 • 148 MB of free hard disk space for minimum installation (423 MB for full installation with SMART Essentials for Educators; Gallery Collections for Notebook software) • SMART Board software version 9.5 supports Intel® processors (Universal Binary) • Safari 1.3.2 or later • Macromedia Flash player version 8

### System requirements Linux operating systems

Pentium II 450 MHz processor • 128 MB of RAM (256 MB recommended) • 185 MB of free hard disk space for minimum installation (460 MB for full installation with Gallery Collections) • Linux® kernel version 2.6 or later (2.6.13 or later to use DT770 hardware) • X Window system version 11 release 6 (X11R6) or higher that supports XRENDER and Xinerama • glibc 2.3.3 (gcc 3.4.2) • libstdc++6 • GNOME™ 2.8.0+ or KDE® 3.3+ libraries recommended • SUSE® 10, Red Hat® Enterprise Linux 4 WS or Fedora™ Core 3+

**NOTE:** Other versions of SMART Board software are available for UNIX® and Linux® systems, as well as for earlier Windows and Macintosh operating systems. Windows and Macintosh operating systems.
